

FIELDLAZER™

Professional Field Marking Equipment

PROVEN QUALITY. LEADING TECHNOLOGY.

THERE IS NOTHING LIKE A GRACO FIELD MARKING SYSTEM

Experienced field maintenance professionals know the difference. Graco FieldLazer professional airless field marking systems are recognized as solid investments that perform reliably, year after year.

TRUST YOUR BUSINESS AND REPUTATION TO GRACO

Graco is committed to providing the highest quality field marking systems available, backed by the industry's best warranty.

AMERICAN BUILT QUALITY

Quality Graco professional airless field marking systems have been designed, manufactured, and assembled in the USA since 2004.

INDUSTRY-LEADING WARRANTY

Behind every Graco field marking system is the industry's strongest warranty. You may never use Graco's warranty — but if you do, we will be there.

MAXIMIZE EFFICIENCY, QUALITY AND PRODUCTIVITY

When it comes to delivering brighter, longer-lasting lines in less time with less paint, Graco FieldLazers are the industry's number one choice of field marking machines — recognized by field maintenance professionals worldwide.

SAVE \$80 PER USE
Painting one football field or five soccer fields using a Graco Fieldlazer will save the user an average of \$80 per use, compared to using an aerosol can striper.

4X
PRODUCTIVITY

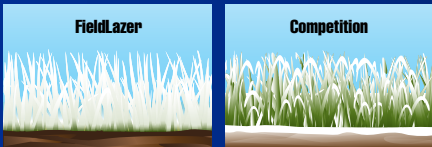

FINISH 4 TIMES FASTER
Graco Field Stripers are four times more productive than aerosol stripers.

50-75% PAINT SAVINGS

- Up to 75% lower paint cost than aerosol
- Up to 50% lower paint cost vs. competitive low-pressure models

PROFESSIONAL, BRIGHT LINES

- High-pressure technology and precision spray tips
 - Spray Pattern coats both sides of the grass blade, not the soil
 - Low-pressure models simply dump paint onto the ground wasting paint, water, time and money
 - Spray thick, undiluted paint

EFFORTLESS, STRAIGHT LINES

- Graco field stripers are designed to track straight—even over rough terrain

FIELDLAZER S100

HIGH-PRESSURE, GAS POWERED FIELD MARKER

Introduced in 2004, the FieldLazer S100 set the standard for airless field marking and is now recognized by industry professionals as one of the top walk-behind field marking machines available.
