

DO NOT LET YOUR MANUFACTURING LINES STOP UNPLANNED

DOWNTIME

Automating processes can reduce the risk of unexpected downtime due to manual errors, inefficiencies, and staffing shortages.

HYGIENE

Salmonella and listeria represent almost 40% of all food product recalls. Having the right equipment that is FDA compliant and minimizing manual interactions within your process can help protect your company from this risk.

EQUIPMENT MAINTENANCE

Over half of industrial equipment failures occur due to improper lubrication maintenance. Automatic lubricators ensure your equipment receives the right amount of lubrication on a consistent basis to help prevent unforeseen breakdowns.

PRODUCT HIGHLIGHT: INVISIPAC

Eliminate adhesive char and improve line efficiency with InvisiPac® melt-on-demand adhesive dispense for case and carton sealing.

Tank-Free™ hot melt delivery outperforms tank and tankless melters, making end-of-line packaging more cost-effective and safer.

ALWAYS INNOVATING. ALWAYS RESPONSIVE.

For nearly a century, Graco has designed, delivered and supported solutions that you use every day. We help simplify everyday tasks and improve productivity for forward-thinking workers and businesses around the world.

Whether you're servicing vehicles, operating heavy equipment, performing maintenance repairs, working on an oil rig or running manufacturing lines, we're your one trusted source for proven lubrication equipment and bulk fluid management solutions designed to maximize your profitability. Because we understand just one hour of downtime can equal tens of thousands in lost revenue.

INNOVATIVE

We listen to our customers and adapt to their needs. Our investment in R&D is unparalleled, empowering Graco to create more reliable, connected, and easier-to-use automatic lubrication equipment, bulk fluid management and fluid transfer systems.

QUALITY

From our best-in-class manufacturing processes, rigorous product testing and industry's best warranty, you always know that Graco solutions are going to get the job done — and stand the test of time. That's why you can find Graco products over 50 years old still in operation.

CONSULTATIVE

Being a consultative partner takes work — and we're always up for it. Graco and our distributors want to work with you to identify, design and install the best solutions for your needs to ensure you receive the maximum ROI on your investments.

RESPONSIVE

When you need an answer, we're just a phone call away. Our support team is committed to providing you with a superior customer service experience and a reliable and fast response. Because we know downtime means lost revenue.

FOOD AND BEVERAGE

Canning and Processing Solutions

PROVEN QUALITY. LEADING TECHNOLOGY.

Every Graco purchase comes with A+ Customer Service.

ARE YOU MISSING OUT ON POTENTIAL PROFIT?

Improving efficiency is key to reducing overhead expenses, achieving a higher ROI, and it can deliver a competitive advantage over the competition. Graco solutions can help you achieve improved efficiencies through minimizing equipment downtime, more accurate throughput and reduced waste.

REELS

- Solutions to handle any industrial need – including electric, light, fluid and air
- Hose and cord lengths up to 150 feet ensures accessibility where needed
- Manufactured with heavy-duty steel for durability and longevity

DRUM/BIN UNLOADER

- Ingredient unloading from pail, drum or bin into mixing tanks
- Evacuate high viscosity materials of 1,000,000 cps or higher and eliminate need for dilution or heating of product
- Multiple configuration options to meet your technical requirements

DIAPHRAGM PUMPS

- FDA compliant transfer pumps for moving product through the assembly line
- Pneumatic and electric options deliver low cost of operation
- Flow rates up to 230 gpm and particles up to 3.8 inches

AUTOMATIC LUBRICATION

- Industry-leading solutions for lubricating industrial machines
- Lubricate any type of machine, from CNC machines to conveyors
- Reduces maintenance and labor requirements, minimizes machine downtime for service

MAINTENANCE LUBRICATION

- Greases, oils and hydraulic fluids dispensing
- Fluid management solutions improve fluid usage, tracking and reporting
- Reclaim pumps for disposing of used fluids

MELT-ON-DEMAND ADHESIVE DISPENSE

- Eliminates adhesive char, increasing productivity
- Prevents pop-opens with consistent adhesive delivery
- Improves safety by removing burn hazard risks

PRODUCT HIGHLIGHT: QUANTM

The QUANTM™ electric double diaphragm (EODD) pumps cut energy usage by up to 80% compared to pneumatic pumps. Integrated controls allow users to adjust flow and pressure at the pump and provide an I/O for remote operation and integration into current control system.

Learn more: www.graco.com/quantm

PRODUCT HIGHLIGHT: G3 MAX GEN 2

Extend machinery life, reduce operating costs, and increase productivity with the G3® Max Gen 2 automatic lubrication pump.

This pump has been updated with easy-to-use features like a new LCD screen and cellular connectivity with Graco's Trace™ web application, providing users with in-depth insights into real-time pump status and usage.
